

Mod Installation Methods: (Ranked by most success rate from users)

Before starting any of these methods, delete any previous versions of the game off your device

Method 1:

- Download and install 64bit version only
- Open up the mod and let the updates complete until the spinning donut vanishes

Method 2:

- Download and install 32bit version only
- Open up the mod and let the updates complete until the spinning donut vanishes
- Log into your account and see if you get the mod
- If you get the normal game install 64bit overtop
- Overtop means you're not uninstalling 32bit version, off your device
- You leave it and install 64bit version over 32bit
- Open up the mod and let the updates complete until the spinning donut vanishes

Method 3:

- Download and install 32bit version only
- **Do not open** 32bit version. Download and install 64bit overtop
- Overtop means you're not uninstalling 32bit version, off your device
- You leave it and install 64bit version over 32bit
- Open up the mod and let the updates complete until the spinning donut vanishes

Method 4:

- Download and install 32bit version only
- Open up the mod and let the updates complete until the spinning donut vanishes

Donuts are only offered on the Elite mod and will only stick by using scratchers with the root version
